Product Number: 11-0201-0505

Goat anti-Rabbit IgG (H&L), dPEG® Alkaline Phosphatase
min X Mouse, Human, Bovine, Horse

dPEG® Alkaline Phosphatase (AP) conjugated Goat anti-Rabbit IgG (H&L) adsorbed to murine, human, bovine and horse IgG (11-0201-0505) is useful in many immunodetection applications, including those using rabbit monoclonal or polyclonal antigen-specific antibodies. This Goat anti-Rabbit IgG (H&L) has been covalently conjugated to AP utilizing our exclusive SuperHydrophilic technology, designed to improve solubility, limit non-specific binding, and improve signal-to-noise ratios. dPEG® AP-conjugated Goat anti-Rabbit IgG (H&L) with this adsorption profile is useful in the classic range of applications including immunohistochemistry, western blots, and ELISAs using multiple labels and human or murine biological materials.

Product Number: 11-0201-0505
Concentration: 1 mg/ml
Buffer: PBS, pH 7.2, with 1% BSA, and other proprietary stabilizers
Preservative: 0.1% Kathon CG/ICP
Storage and Handling: Store at 4° C for up to 12 months. To extend shelf life, aliquot and store at -20° C or below and avoid repeated freeze-thaw cycles. Alternatively, add an equal volume of molecular biology grade glycerol (50% final concentration) and store at -20° C as a liquid. Protect from light.

Antibody Information

Target Antigen: Rabbit IgG (H&L)
Host: Goat
Clonality: Polyclonal
Minimal Cross Reactivity to: Mouse, Human, Bovine, Horse
Antibody Country of Origin: United States of America

Label Information

dPEG® Alkaline Phosphatase

APPLICATIONS	SUGGESTED DILUTION RANGE
Western Blot	
ELISA	
Immunohistochemistry	

*Optimal dilutions must be determined by the end user in their individual systems

*Combining the exclusive technology of Quanta BioDesign
 with the antibody excellence of American Qualex*
